A media release relating to the project from the Federal Government is below.

Rum Jungle Creek South closure for maintenance – media release Minister for Resources and Northern Australia

27 September 2019

Joint media release with Senator for the Northern Territory, Senator Sam McMahon

Planned maintenance work on the waste rock dump at Rum Jungle Creek South, about 105km south of Darwin, will begin shortly to ensure the site continues to meet national standards for radiation protection.

Minister for Resources and Northern Australia Matt Canavan welcomed the announcement that a \$1.9 million contract has been awarded to NT-based company, Aldebaran Contracting, to carry out the works. Minister Canavan said the works will continue until the end of the year and will improve the existing safety coverage system.

“The waste rock dump cover system requires maintenance to ensure its future integrity. The maintenance work will ensure areas around the site, including recreational areas near Rum Jungle, are safe to visit and meet international standards,” Minister Canavan said.

The maintenance is part of a bilateral agreement between the Australian Government and the Northern Territory Government for the management of the former Rum Jungle Mine site (Stage 2A). Under the agreement, the Commonwealth has provided \$10 million in funding to support finalising rehabilitation planning for the Rum Jungle Mine and satellite sites, including Rum Jungle Creek South.

“We will continue to work with the NT Government to ensure the highest standards of radiation protection safety are kept,” Minister Canavan said.

Northern Territory Senator Sam McMahon said the maintenance works will also provide employment opportunities.

“Ensuring the site meets the highest safety standards will help continue capacity building for Traditional Owners and local businesses during the maintenance and beyond. Public access to the site will be closed during the maintenance,” Senator McMahon said.

The Northern Territory Government has been working with the Australian Government and traditional owners, the Kungarakan and Warai peoples, since 2009 to develop a preferred rehabilitation strategy for the former Rum Jungle Mine site.

SUMMARY

This email and detail due to size of the documents was emailed to Councillors on 7th October to allow perusal of the documentation in advance of the meeting.

BACKGROUND

Subject: Proposed Local Government Bill - changes to the Local Government Act 2008

Dear CEOs

Following my previous email about the Local Government legislation, please find attached two documents: a copy of the proposed Local Government Bill with highlighted parts, and an updated information sheet about the new legislation. The highlights in the Bill indicate new or changed parts from the current legislation. Not every minor wording change may be captured but every effort has been made to highlight the new concepts and changes.

To minimise the number of pages for printing purposes, some pages have been deleted where there are no changes, or changes are minor - these include the definitions pages and the transitional provisions, which can be read in the formal version of the proposed Bill, which is accessible at this link:

7.8 MINISTER MCCARTHY'S LETTER REGARDING DEPUTATION 12TH AUGUST 2019

Applicant:	N/A
Location/Address:	N/A
File Ref:	
Disclosure of Interest:	Nil
Date:	15 th October 2019
Author:	Paul McInerney, Chief Executive Officer
Attachment:	Letter from Minister McCarthy re Meeting on 12 th August 2019

SUMMARY

The letter from the Minister for Local Government, Housing and Community Development was tabled at the September meeting of Council having been received the day before the meeting.

The Council may wish to make a formal reply to the Minister or seeking discussions with the Department as referred to in the Minister's letter.

The President and CEO intend to have a discussion with the Executive Director, Local Government Division to discuss the details of the letter from the Minister and the proposal moving forward and support needed for ongoing participation.

Belyuen Councillors wish to visit Coomalie on Friday 1st November at 10am for a short informal meeting to allow both Councils a discussion on process moving forward.

BACKGROUND

The letter states

"Thank you for meeting with me on the 12th August 2019, to discuss the proposal from the Coomalie Community Government Council and the Belyuen Community Government Council to voluntarily amalgamate.

I acknowledge the efforts to date in producing the Final Draft Briefing proposal and appreciate the commitment of the two Councils to working together on the proposal. I understand your interest in the eventual larger regional structure.

I understand that the Department of Local Government, Housing and Community Development has provided feedback on the draft, including the importance of rigorous justification and the need for more clarity on the financial position of Belyuen Community Government Council before any proposal is finalised. While I appreciate this may take longer than the Councils have anticipated, a merger of Councils is an important matter that all parties have an interest in getting right.

I encourage you to continue to seek and consider the Departments feedback as the councils' proposal is progressed. This includes defining the resources that are essential for a merger of the two shires, with the Litchfield National Park, separate to the resources that are essential if other areas wish to be included in the future.

I have asked for officers from the Department to continue to work with and support both Councils in relation to the proposal for a voluntary amalgamation. The Department will also keep me informed of your joint Council progress in finalising the proposal.

Yours sincerely

Gerry McCarthy

COMMENT

7.9 SOLOMON ROAD-WEST CHEENEY

Applicant:	N/A
Location/Address:	N/A
File Ref:	
Disclosure of Interest:	Nil
Date:	3 rd October 2019
Author:	Paul McInerney, Chief Executive Officer
Attachment:	Solomon Road -Cheeney West photo's

SUMMARY

A request has been received for Council to secure tenure from Landcorp of an additional 10 metres from their northern boundary to allow for proposed improvements to a road reserve.

BACKGROUND

The Below email was received on Tuesday 10th September 2019.

Subject: Solomon Road - West Cheeney

CEO and Councillors,

Recent remediation works on the portion (approximately 400M - 900M west) of this section of road is noted and appreciated. The material used (pictured) does not appear to be Type 2 gravel (as specified as a requirement in Standards Council adopts) but likely suitable for purpose.

The write notes -

- 1) The current easement west of Cheeney to the south east corner of Section 1326 is currently one chain wide,
- 2) The road is formed(?) 3.5M - 9.5M (6M width) with a centreline approximately 6.5M from the southern boundary,
- 3) That the electricity and communications easement is 3.5M, and that reticulated electricity supply to 785 Solomon is to be installed,
- 4) That CCGC Standards are for Road Easements to be 30M wide,
- 5) That the land to the north is held by Landcorp and that Landcorp are currently negotiating a new lease agreement over this area.
- 6) That land currently held by Council is currently not managed to the standards required and clearing and widening of the easement would assist management,
- 7) That CCGC has previously made arrangements with Landcorp to secure suitable easements for roads,

It is further noted, communications on file from former Council staff indicate this portion of road was designed as a single crossflow. At a point in time since (a perhaps poorly instructed) operator attempted to form the portion of the road approximately 400M - 650M to a dual crossflow. Erosion on the southern side that resulted was mitigated by dumping large loose rock in places. The ongoing issue of water channelling and eroding the road resultant from years of windrows created by grader operators on the section from 650M to 900M could best be mitigated by repairing of a drop structure (pictured).

It is requested that Council pass a resolution to, and instigate a plan to, secure tenure from Landcorp of an additional 10M from their northern boundary, to enable Council to bring this road to standard at some point in the future. It would also be appreciated if the drop structure could be attended to.
