OBJECTIVE

To provide guidance to the community and Council staff in relation to various matters related to roads. The NT government is responsible for the provision of the arterial road network. Other roads are the responsibility of Coomalie Community Government Council. This Policy addresses a range of matters not covered by the more specific policies, in particular weight limits.

POLICY STATEMENT

Council will determine road maintenance standards. Road maintenance standards will be determined from Council's levels of service and measured using performance indicators.

A Maintenance Works Plan will be developed for routine maintenance activities to insure the most efficient maintenance practice.

Weight Limits

Council implements weight restrictions of 8 tonne on Council owned roads during the wet season and determines when to apply and remove the weight restrictions.
