## Operation Manager Report March 2013

### Rural Roads

In general the rural roads are holding up, except for **Scott Road** which is starting to become boggy and will need attention as soon as it dries out. It is not in our road program but with our staff and help from landowners we will fill in these holes. **Cheaney Road** is starting to get wash outs every time heavy rain comes across this area. **Cadogan Road** has some areas that are becoming a problem, if they get any worse there is money in the budget for these flood ways to be fixed. **Heather Lagoon Road** wash out was fixed but has scoured again and this area will have to be redesigned to stop this problem.

All of our main roads have been slashed. **Coach, Miles, Solomon, Cheeney, Milton, Haynes, Strickland** and **Chinner Road, Lake Bennett and Crater Lake Road, Bevan Lithgow** and **Poet**. The **Rum Jungle Lake** has also been slashed.

Staff have sprayed culverts, guide posts and some Gamba grass on all the roads. We will with what funds that are available start spraying Gamba on our roads. There have been some land owners that have slashed outside of their boundary to our slashed area and this has been appreciated.

### **Dumps**

**Adelaide River** dump, not many problems all going along ok for what we have.

**Batchelor** dump is as you all know a bloody mess and with the rain it hasn't helped. We are still dumping on a face but shortly we will be moving this to dump into the Slot when weather permits. Since cash for containers has come to an end our recycle areas in both towns has increased dramatically.

### **Public Facilities**

The work at the **Adelaide River** oval toilets has been finished and costings for a further upgrade for both public toilets has been done.

**Tavern Car Park** toilets are being done now and although we are having a bit of trouble with the painting contractor. We hope that all work will be finished next week.

### **Council Depot**

We have started putting shelving in our container as time permits, and should be able to clean up areas in the shed and move to the container by May.

### **General**

I am working on roads access trail on the Northern part of the Shire and it will be ready shortly.

Obtaining quotes for the Batchelor swimming pool and will try and work around doing the work when the pool is going to be shut for the dry season.

I would like to thank the staff as they have been doing an excellent job and with a routine in place all is working well.

Figures above include Wednesday nights Swim Groups

Numbers have been steady but not great, on really hot days or footy Saturdays and Sundays, the pool is very quiet. Big stormy afternoons, people are at the pool. The weather has been mixed, and people's reactions to this, change from day to day. There has been a steady growing swimming club and mornings are proving to be popular.

Moving the power from behind the pumps to a safer place will be carried out soon using money from the Government grant.

The shade cover will also be repaired again.

Pool is running well most of the time. The two new pumps are showing stress to the bearings and may need work soon.

### 7.3 APPLICATION FOR WAIVER OF RULES AND FEES FOR BRUCE JONES COMMUNITY CENTRE

<b>Applicant:</b>	COTA (NT)
<b>Location/Address:</b>	Batchelor
<b>File Ref:</b>	Nil
<b>Disclosure of Interest:</b>	
<b>Date:</b>	13 March 2013
<b>Author:</b>	Chief Executive Officer, Lee Farrell
<b>Attachments:</b>	Letter from COTA(NT) Coomalie Branch

#### SUMMARY

Council have received a request from COTA(NT) for the waiver of hire fees set for the use of the Bruce Jones Community Centre. The Community Centre will be the venue for a Quiz night on the 3<sup>rd</sup> of August 2013, which forms part of the activities of the Lingalonga Festival/60<sup>th</sup> Anniversary Reunion weekend.

COTA(NT) are also seeking Councils permission to apply for a special alcohol licence for this event and the waiver of the no glass rule so they can have wine, stubbies and food service in glass and china containers.

#### BACKGROUND

Council adopted the Hire Agreement for the Bruce Jones Community Centre in August 2012 - RESOLUTION 21/08/2012/022.

The Hire Agreement states:

- The Hirer to pay the due fees for the building on application. Changes to the due fees or application of concession or long term hire can only be made by decision of the Council.
- Fees and Charges Schedule Bruce Jones Community Centre 2012/2013

Refundable Bond	\$100.00
Half Day Up to 4 hours	\$30.00
Full Day or Evening	\$50.00
- **Rules of Use** (Excerpt only)
  1. NO ALCOHOL permitted in the Building or surrounds unless written permission to consume alcohol has been obtained from the Council and a liquor consumption permit has been obtained Batchelor Police.
  2. NO GLASS to be taken into the Building or surrounds.

## **RECOMMENDATION**

- 1 That Council charge COTA(NT) the bond of \$100 to be refunded after the event providing the premises are in same condition as at time of hire and that the hire fee of \$50.00 for the Bruce Jones Community Centre on the 3<sup>rd</sup> August 2013 be waived.
- 2 That Council endorse COTA's proposed application for a Liquor Consumption Permit at the Bruce Jones Community Centre for the 3<sup>rd</sup> of August 2013.
- 3 That Council waive the no glass clause for this event.

## 7.4 SPECIAL PURPOSE GRANT FOR PLAY AREA IN ADELAIDE RIVER

<b>Applicant:</b>	Nil
<b>Location/Address:</b>	Adelaide River Oval
<b>File Ref:</b>	N/A
<b>Disclosure of Interest:</b>	Nil
<b>Date:</b>	11 March 2013
<b>Author:</b>	Jo'Anne Kinter Administration Manager
<b>Attachments:</b>	Letter - Manager of Grants Program Quotation from Shade and Play Quotation from Recreational Concepts Quotation from Softfall NT

### SUMMARY

In June 2012 the then Minister for Local Government Malarndirri McCarthy approved a Special Purpose Grant to Council (2011/2012 funding) totalling \$54,510 to fund the erection of a **small fenced play area with shade structure** to the Adelaide River Access Shed.

### BACKGROUND

Finance Manager Melissa Kerr sought three (3) quotes for:

- Play equipment suitable for 2- 10 year olds.
- Rubber softfall base.
- Fence 1200 high (black pool.)
- Supervisor to assist CCGC staff with installation.

The following quotes have been received:

1. **Shade and Play:** \$46, 357.00 supply of playground equipment, fence panels, gate and supply and installation of rubber softfall base. **Freight and Supervision of installation not costed.**
2. **Recreational Concepts:** \$54,000.00 supply of playground equipment, safety pool fence and rubber softfall base. **Includes supervision of installation.**
3. **Softfall NT:**
  - a \$51,733.71 (SS3990) labour and supply of play equipment and softfall. **No fencing included in costing.**
  - b \$55,004.56 ( SS4988) labour and supply of play equipment and softfall. **No fencing included in costing.**

### COMMENT

Finance Manager, Melissa Kerr met with some of the mothers from the Adelaide River School whose children will use the playground in the future and in consultation with Operations Manager Robert Bright they decided on the preferred position to erect the play equipment which is between the Tennis Court and the Adelaide River Access Shed.

CEO Lee Farrell has previously discussed the installation of the equipment with Correctional Services who have indicated they could undertake this work for Council.

A shade structure is to be constructed from the grant funds remaining after payment of playground equipment, rubber softfall base and fencing.

The play equipment quote recommended meets requirements and allows additional funds for freight and erection of shade over the equipment.

## 7.5 PETER PITCHER ROAD LICENCE APPLICATION

<b>Applicant:</b>	Peter Pitcher
<b>Location/Address:</b>	Solomon Road
<b>File Ref:</b>	CC 19C
<b>Disclosure of Interest:</b>	Nil
<b>Date:</b>	12 <sup>th</sup> March, 2013
<b>Author:</b>	Lee Farrell, Chief Executive Officer
<b>Attachments:</b>	Current Agreement P Pitcher Letter of Support – adjoining landowner

### SUMMARY

Mr Peter Pitcher has discussed with me the extension of the Current agreement on Solomon road

### BACKGROUND

The following email has been received from Mr Peter Pitcher;

*"I write today further to that discussion with particular reference to the mooted extension of the lease I currently hold over Solomon Road to a point approximately 400 M west of the Solomon Cheeney Roads intersection (approximately 50 M beyond the traditional point of access of Section 113). No other change of conditions is required or requested. I have attached the relevant document for your convenience.*

*I have contacted an owner of Section 1326 Solomon Road, Gerry McCormack (CCd to this communication for his and your information) who has previously expressed concerns to me regarding trespassers and have received verbal confirmation of support for the proposed extension (which I expect will be confirmed in writing soon).*

*I note your advice that this will need to be put to Council and hope that you would do this at the next ordinary meeting next week as this situation is getting worse (I had another incursion on the weekend, this time I was able to identify the person and will be speaking directly to them as a courtesy soon).*

*I would expect a letter of support from Gerry before that meeting however should that letter not be forthcoming before that meeting a motion approving the extension subject to written confirmation of the owners of Section 1326 Solomon Road would assist in progressing the matter.*

### COMMENT

The new approval will take the License extension to 400 Meters west of the Solomon Cheeney Roads intersection (approximately 50 M beyond the traditional point of access of Section 113). No other change of conditions is required or requested.

I have read the agreement and have forwarded such onto the Department of Local Government for comment. They like me do not understand what the agreement is referring to as it is not clear. Council can allow a fence across a road but it cannot be locked, or prevent anyone else from using the road unless the road has been temporarily or permanently closed in accordance with the Regulations.

### CONSULTATION

Department of Local government:

I have spoken to the Department of Local government who suggested that Council should seek legal advice on this issue, as if a gate is placed across the road and an accident occurs, Council could be liable. The gate cannot be locked as people have the right of access along a Public Road.

## **STATUTORY ENVIRONMENT**

### **Local Government Administration Regulations.**

#### **19. Permanent closure of road**

- (1) Before a council submits for the Minister's consent a proposal to close a road in its area on a permanent basis, it must give public notice of the proposal.
- (2) The proposal (which must include a plan delineating the road to be closed with reasonable accuracy and detail) must be accessible on the council's website.
- (3) The notice must include an invitation to any person who may object to the proposal to lodge a written objection to the proposal within a reasonable period (at least 28 days) stated in the notice.
- (4) The council must consider any objections lodged in accordance with the invitation.
- (5) If, after publishing a notice under this regulation, the council substantially modifies its proposal (either as a result of objections or for some other reason), the council must publish a fresh notice under this regulation of the modified proposal.
- (6) When the council submits a proposal for permanent road closure to the Minister for consent, the proposal must be accompanied by:
  - (a) a report setting out the steps taken by the council to comply with this regulation; and
  - (b) copies of written objections (if any) received by the council to its proposal.

#### **20 Substantial temporary road closure**

- (1) If a council proposes to close a road temporarily but for a substantial period (at least 1 month), the council must, before proceeding with its proposal, consult with the Minister (or the Minister's nominee) and the MLA for the electoral division in which the road is situated.
- (2) The council:
  - (a) must carefully consider written submissions made by the Minister (or the Minister's nominee) and the MLA in the course of the consultation; and
  - (b) must not proceed with the closure unless satisfied that the reasons for the closure justify the disruption to traffic resulting from the closure.
- (3) However, this regulation does not apply if:
  - (a) the road to be temporarily closed is a laneway; or
  - (b) the road closure is urgently necessary in the interests of safety.

## 7.6 VEHICLES-BP SERVICE STATION BATCHELOR

<b>Applicant:</b>	Rum Jungle Bungalows

### SUMMARY

The owner of Rum Jungle Bungalows has been concerned for some 6 months over the number of vehicles in and around the BP service Station in Batchelor. Council has been communicating with the Department of Lands and Planning over this matter and they have been corresponding with the owner.

### BACKGROUND

The current email brings Council up to date with the issues being raised.

On 8<sup>th</sup> March, 2013 I have again spoken to the owners of the BP service Station and he has advised as follows;

1. Has been taking vehicles out to his rural property from his Batchelor business.
2. The cars outside his property are cars waiting for service and the owners have yet to get back to him to confirm they are happy to pay the cost of repairs.
3. Requested that **NO vehicles be parked** on the Road reserve. He will remove the vehicles but sometimes vehicles will be parked their by customers.
4. Have requested that the City of Darwin provide information on their Abandoned vehicle regulation (see below). This will be submitted to Council for deliberation.

### Abandoned Vehicles

*City of Darwin has regulations in place to remove, or force owners to remove, vehicles abandoned within the Municipality. Council will begin proceedings to serve notice on the owner of an abandoned vehicle within 24-48 hours of receiving a complaint about the vehicle's presence.*

*The owner will be served with a notice to remove a registered vehicle within seven days or an unregistered vehicle within 24 hours. Any vehicle found within a restricted parking zone or parked in a dangerous manner will be removed immediately.*

**The following response has been received from the owner of the Rum Jungle Bungalows to the 8<sup>th</sup> March email above.**

*Thank you so much for your email and for all you and the Council are doing to try to find a solution to this serious problem which continues to affect the amenity of the whole town, not only the businesses in the immediate area.*

*In response to the numbered Points in your email I offer these comments:*

**Point 1:** *There has been no obvious reduction of vehicles on the BP property. New and different cars continue to appear on the Meneling Road and Rum Jungle Road verges. There have been no vehicles removed from the adjoining Lot on Meneling Road. (Antecdotal: Neighbours near his rural block have asserted that his rural block has for years been completely overstocked with stored vehicles).*

**Point 2:** Surely an owner temporarily leaving their registered vehicle at the Garage for the short duration of service or repair would expect it to be housed within the safety of the BP property, and not parked on the road verges. The proprietor of the BP is responsible for these vehicles being on the verges and for not being housed within his property. Many of these vehicles on the verges have no registration plates and have been brought there by the proprietor of the BP.

**Point 3:** There is sufficient space in the immediate area of the petrol pumps and the Shop for customers to park for the short period needed to pay for petrol or making purchases. We are not talking about the very few cars of shop/petrol customers who occasionally park their car very briefly on the verges rather than in the immediate area of the pumps and the Shop as most customers do.

**Point 4:** In accordance with the regulations for abandoned vehicles that you have provided, all the cars stored or parked by the proprietor on his properties and on Council and Roads Division land, would therefore qualify to be removed within 7 days or 24 hours and most of them for immediate removal.

*I know a lot of these questions and observations have been made before but I offer these additional comments for Council's consideration at their meeting:*

*Why would the owner of the BP continue to bring and keep cars for many years and continue to increase the innumerable vehicles on his BP site, on his rural property, on his adjoining Lot on Meneling Road and especially to continue to illegally store these excess vehicles, unable to fit on his BP site, on Council and Roads Division verges.*

*When an owner of a registered vehicle brings their vehicle in for legitimate service or repair, surely their expectation would be that it was placed safely within the fenced boundary of the BP property. The size of this property has more than adequate space for the few registered vehicles actually brought in by owners requiring servicing or repair to be temporarily parked within the boundary of the BP property; this would be more than possible if all the obsolete stored vehicles were removed from the site.*

*It would then be completely unnecessary for any vehicle, including his truck, at any time to be left/parked/stored on the verges of both sides of Meneling Road or on the Rum Jungle Road verges as is now the case.*

***This continuing situation caused by the owner is not rational from any perspective. With the great advantage of having his business on this very unique location, he is missing a chance at the enormous potential for his business to improve, for it to be very prosperous and for it also to be a great asset to the community.***

**The following is the action taken by the City of Darwin in respect to Abandoned Vehicles;**

The following document is the procedures we follow when actioning an abandoned vehicle. It is built around the steps from PART 5 (Abandoned Vehicles) Northern Territory Traffic Regulations.

#### **Abandoned Vehicles**

- *On receiving an abandoned vehicle request customer is to be phoned. The maximum time period for this to happen is within 24 hours excluding weekends or public holidays. Advise customer who you are and what action you are going to be carrying out and see if there is additional information that may be obtained that was missed out when complaint was lodged.*
- *Physically ascertain where the vehicle is meant to be abandoned. Only the competent authority is permitted to deal with abandoned vehicles, (Traffic Regulation 65(1)). If the vehicle is on Transport & Works road or in a shopping centre car park or private property then City of Darwin is unable to act on the customer request. (If the vehicle is on Transport and Works land or Crown Lands forward the complaint onto them with the complainants details.) Advise customer of this and write off the complaint.*
- *Once established that the vehicle is on a Council controlled public place then immediate enquiries need to be made in the general area of the vehicle, (Traffic Regulation 65(2)(b)). Step 1 on the abandoned vehicle report*

*allows for the input of information on the result of the enquiries. The information needed is the houses or units that you have canvassed and any information the occupiers have given on the vehicle itself.*

- *Notice needs to be served. The definition of an abandoned vehicle is derived from the Traffic Regulations (63). In short a vehicle is abandoned if it is:-*

*Registered and left where there are time zone restrictions or at a place where the regulations prohibit a vehicle from parking, in this case 24 hours to remove is given.*

*Registered and there are no restrictions, 7 days to remove.*

*Unregistered, 24 hours to remove. Unsure, 24 hours to remove.*

*The notice needs to start off with,*

*TO: Owner / Driver,*

*and have as much information on it as possible, e.g. rego number, vin number, color, make, model, expiry date and the location of the vehicle.*

#### *Information On Notice*

*"City of Darwin has received a complaint regarding the above mentioned vehicle being abandoned in a public place. Please be aware that this is an offence under the NT Traffic Regulations and the vehicle may be removed from a public place at the owners expense."*

*The vehicle will need to be removed within 24 hours or 7 days, (see Traffic Regulation 63)*

*The original notice is to be retained with the complaint and the copy is to be placed on the vehicle or given to the owner of the vehicle.*

*The complaint including the report can be handed over to TLPG for a rego check. The check can be done before the 7 day time period has elapsed.*

*If there has been no further developments with the registered owners details, hand the complaint back to TLPG for an abandoned vehicle letter to be sent to the last registered owner.*

*The letter will be sent by registered post to the registered owner of the vehicle. The post office will send out a card to the owner for collection and to sign for the letter, if there is no reply to the card the post office will send out the card 2 more times 1 week apart before returning the letter back to Council, this process could take up to 4 weeks.*

*Customer should be contacted at this stage to be informed of either,*

- 1. Vehicle has been removed, or*
- 2. Vehicle still there, and the level of difficulty of removal (approx time frame of removal)*

- *Vehicles with interstate registrations will not have a letter sent out but will be advertised in the local newspaper stating the vehicle will be removed, after it has been removed another add is placed in the paper telling the owner where the vehicle is located. Traffic Regulation 65(6).*

- *When the registered post card has been returned to Council it will have a follow up date on it. The complaint will then be placed in the follow up file. The vehicle will be checked after that date.*

*If the letter is returned the vehicle is ready for removal by Council.*

- *Follow up on vehicle, contact the customer, and write complaint off.*

*If the vehicle is still there complaint is to be given to TLPG to go on the tow list for the removal of the vehicle.*

- *A vehicle can not be towed unless it is accompanied by a Council officer.*

- *Photos are to be taken before the vehicle is moved, when it is on the truck, and in the depot on the truck.*

- *The complaint number and date is painted on the windscreen, front or rear, with surveyors paint and another photo is taken with all the details.*

- After 28 days in the compound the vehicle can then be disposed of to the recommended auction house.

## COMMENT

**The following is the response from The Dept of Lands & Planning**

*Dear Mrs Mornane,*

*See the response below that I sent you on 1 March 2013.*

*See attached the process that has to be followed for disposal of abandoned vehicles or vehicles left with a person who is not the registered owner. There is a similar process that can be followed by councils and roads division when cars or other items are left on verges. You can often see these adds in the NT News where the City of Darwin advertises vehicles left on their property and we had to follow the same process when I worked in Crown Land Administration and cars where left on Crown land.*

*Development Assessment Services does not have the legislative ability to impose "Infringement Notices". We have to follow a course of action which involves, advising the landowner, giving them a period to comply, follow up on the their compliance with the aim to resolve the matter. If the landowner does not show that they are willing to comply then we can refer the matter to the DCA for a resolution on further action. We have only just begun this process.*

*MrKubasiewicz is the rural manager. He has been to the property, spoken to the landowner and authorized the letter to the owner. DAS also sent information advising the landowner of who to contact in the Dept of Justice regarding selling more than 3 cars a year without a dealer's ticket so he is able to get rid of the excess vehicles. There is also the private process as attached. It is now up to the landowner to use this information in order to sell off or dispose of the vehicles on his property. As I said above, the vehicles on the verge can be dealt with through council or roads division.*

*I hope this information is of assistance.*

*Regards*

*Dear Ms Mornane,*

*DAS has written to the landowner, visited him on site and sent him a post meeting letter and other information in order for him to get rid of excess vehicles on the site over the next twelve months. We intend to follow up with him every two months to see how he is progressing. **As far as I am aware, if cars are left parked on council verges they can be removed after a sticker is placed on their window and a notice placed in the paper advising that they have to be claimed by the owner in a certain timeframe. If unclaimed they then become the property of council or government (if on a main/non government road).***

***DAS cannot deal with cars placed on the verge but will deal with reducing the number of cars kept at the service station and adjoining spare block sites.***

*Can you clarify if the cars are on the verge or on the above mentioned properties?*

### SUMMARY

Three landowners have requested road access into their properties. One for a subdivision upgrade, one for farming practices in the Collett Creek area and the other to gain access to their property on Boundary Road.

### BACKGROUND

The following emails have been received in respect to these applications;

#### WILDMAN RIVER STOCK CONTRACTORS PTY LTD

Hi Lee,

*My brother Jeffrey and I own 4 blocks North of Batchelor being sections 2127, 2128 & 2172 Hundred of Goyder & section 866 Hundred of Cavanagh.*

*These blocks fall within your jurisdiction.*

*We require road access to these blocks so that we can develop them into an agriculture enterprise. We have been in discussion with your two predecessors about this issue. As part of our day to day business we own & operate earthmoving equipment. To achieve our property access goal we would like to work with the Coomalie Community Government Council. We'd be willing to clear at our expense the length of Letchford road south from Spencer / Boundary road to the Finnis River. This would run down the eastern boundaries of our blocks 2128 & 2172.*

*This cleared line would allow us to get equipment, materials and supplies in and out of our blocks to develop a viable property. The secondary benefit of this clear line is a firebreak to manage fires in the region.*

*I'm sure once this line is established we'd see activities commence on other blocks in the area.*

*Input from the council would include:*

- Locate the existing Letchford road survey pegs and or survey the areas with nil markers. (Some of the properties in the area have cleared boundaries).*
- Arrange a lease with the Northern Territory Government for the area at the southern end of Letchford road down to the River.*
- Council operations manager supervise the clearing process.*

*Please call should you require any further information.*

*Cheers,  
Michael Swart*

**JOHN WHEELER**

*Hi Lee*

*Just a note in regards to access to the blocks in the northern part of our Coomalie region , I own 4 blocks being 860 861 862 and 883, the northern side of these blocks has been surveyed ,by the council in the past and has been cleared, at that time the part of letchford road between 862 and 883 was also surveyed and cleared. what I would like to see happen now is a resurvey of the mira road south easement from boundary road to the unnamed road on the northern side of my property, as I spend quite a bit of time and money doing maintenance to a road that is in the wrong place . I have had lengthy discussions with other land owners in the area and am happy to assist them with any work in our area, as i own my own dozer, tip trucks etc. . These access roads also help in fire control and are extremely important for the growth and viability of the area; I am presently working in town as my hay has been burnt every year for the last three years.*

*Regards John Wheeler*

**Ina Fulton and Sharzha Parker**

*Good Afternoon,*

*I am seeking clarification / information as to providing an access road to an allotment on Boundary Road, Darwin River.*

*Currently, at the end of Mira Road South, there is an easement for Boundary Road. The allotment in question is located along Boundary Road as you turn Right from Mira Road South onto Boundary Road and travel approximately 1.8km. The Owners wish to live on the property as soon as possible however, there is no access provided (the existing 2 x wheel bush track is not accessible during the wet season).*

*My query is what provisions can the council make in order to provide reasonable access for the owners to their property.*

*Any information you can provide is greatly appreciated.*

*I can be contact on the details below.*

*Regards,*

## **COMMENT**

These applications have now being under consideration for some time. Action to date is as follows;

- Inspection of the road network has been undertaken by Dept. of Lands & Planning Staff, Litchfield Council, Clrs Turner & Crook.
- Letter has been sent to Dept. of Lands & Planning to approve the northern corridor route (old railway line) – No response to date.
- Have identified the best routes for all possible users and these have been delineated on a plan.
- Approval has been sort from the Dept. of Lands & Planning for road access through Crown land as a road access and fire break in this area.
- Have indicated to the landowners that Council has NO funds to construct roads in this location.
- Landowners advised that Roads will have to be built to a standard that meets Coomalie Council minimal requirements.
- Litchfield Council has advised that they support the Northern Corridor route (old railway line) but have no funds to develop Boundary Road. The auction that will be held to sell land along this road a statement to this effect will be distributed.
- Emails from the three landowners acknowledging and approving the development of a fire access trail are included in this item.

- Letter from the Dept. of Land Resource Management – Bushfire Unit approving the construction of fire trails is attached.
- All land owners have agreed to undertake the cost of constructing the fire trails at their expense.

### SUMMARY

The following is the decision of Council from its May 2012 meeting.

*Moved Clr. Turner, Seconded Clr. Crook that Boundary Consultation/Expansion be a standing item on the council agenda until resolved. Council supports making this a priority for council. Clr. Turner has undertaken to provide the initial structures for our decision making.*

*The following is the decision of Council from its July 2012 meeting*

*Moved Clr Gray, Seconded Clr Turner that Councils priority is for the CEO to initiate discussions with the various stakeholders and commence detailed research into the extension of our boundaries to develop (if possible) a sustainable Council that will provide the necessary service and capital expansion required for the total area serviced by the expanded Council. Once all negotiations have been completed with the relevant stakeholders, this proposal be then put out for Community consultation.*

*The following is the decision of Council from its August meeting 2012.*

*Moved Clr. Crook, Seconded: Clr. Turner that to progress the amalgamation question, the President Cr J Colver, Cr A Turner and the CEO meet with representatives of the Department of Local Government NT following the NT Elections on a date to be determined.*

*No action taken at November meeting 2012.*

## BACKGROUND

The Deloitte report has now been released and every Councillor has received a copy of this report. This report has been discussed by Council.

## COMMENT

15/11/12 Invitation sent to the Minister for Local Government to attend the December meeting of Council.

4/12/12 Cr A Turner and the CEO met with Giovina D'Alessandro Director Local government and Community Services, John DeKoning Deputy Chief Executive, John Tobin Director – Shires Sustainability Project. The points of interest from the meeting were as follows;

- Local Government Department have not tested the water in respect to the amalgamation of Council's
- Local Government Advisory Board has been formed which is made of representatives from Local government and others. Coomalie Council is not represented.
- The Advisory Board will be reviewing the smaller Councils over the next 2 months.
- CCGC Requested financial assistance from the Dept. of Local Government to undertake an in house investigation into the possibilities of including the unincorporated land into the Coomalie Shire. The area did not include Dundee.
- Recommended that Council prepare a financial model for consideration by the Dept. of Local Government by the end of January 2013. The model to include the financial advantages and disadvantages of including unincorporated land into the Coomalie Shire. Dept. advised they will advise Council if funding is available.

## **CEO Activities Report 15<sup>th</sup> February, 2013 to 14<sup>th</sup> March, 2013**

### **1. TOPROC Meeting 21<sup>st</sup> February, 2013**

Attended the TOPROC meeting on the 21<sup>st</sup> February, 2013 (A Turner was an apology because of work commitments). The following matters were discussed;

- Received a presentation from SLR outlining their waste management services.
- Darwin waste site will take asbestos at \$330 tonne.
- Natasha Griggs MP was in attendance and answered questions in relation to federal issues. I raised the following with her and forward an email requesting comment on such:
  - The issues which are pending are as follows;
  - No official car park at the WWII Cemetery – with now in excess of some 70,000 visitors to the Cemetery annually; the development of a Car park is essential – Estimated cost \$250k.
  - Memorial Drive – road access into the WWII Cemetery – The road is failing and the cost of repairs is estimated to be in the vicinity of \$200k.
  - Cost of Cleaning Toilets – Council cost is \$18k annually. These toilets are used solely by the tourists – no contribution is received from any other source. Council is considering placing a coin operated system on these toilets to recoup the cost of cleaning.
  - RDAF funding – Snake Creek Armament Depot & Rail. A Grant application has been submitted but was not approved under round 4. This area needs to be restored and maintained before it is lost for ever. It is unique as there is no other type of facility such as this in Australia.
  - RDAF funding – Adelaide River Tourist centre. A grant application was submitted but was not approved under round 3. Adelaide River is the entrance to the tourist precinct for travellers coming from the South. This facility is essential to assist Tourist entering this part of the NT.
  - Happy to take the Hon. Natasha Griggs on a tour of the above facilities to highlight our concerns.
- Federal Election – Natasha made an interesting statement that the federal election will be held in late June, 2013 not September.
- Darwin developments – Formal plan proposed by Tony Abbott for Darwin will be out in approx. 6 weeks.
- Next Meeting 4<sup>th</sup> April, 2013

### **2. LGANT Meeting 6<sup>th</sup> & 7<sup>th</sup> March, 2013**

#### **a. CEO Forum.- 6<sup>th</sup> March, 2013**

- i. Civica Pty Ltd – The Company is looking to set up a group of Local Authorities on which to supply an Accounting service based in Darwin. They currently support the “Authority software” which is used by Litchfield Council.
- ii. Cultural Development Network: Development of Cultural Arts in remote and Indigenous areas.
- iii. Blaze Advertising – Company offer an advertising service that undertakes all Councils advertising on a discounted rate. They also prepare and publish Annual reports. Councils to advise if they are interested.
- iv. Anzac Centenary Advisory Committee: Provided a detailed presentation on the celebrations planned for 2015. The main one is the Borelli Ride which commences at Tennant Creek and finishes in Darwin. Grants are available through the local Federal MP. Grants are for WWI projects. This information and contacts have been given to CRO.
- v. Local Government Management Association has 6 teams from the NT undertaking the Municipal Challenge. Need \$60k a year to operate. Looking for Corporate contributions from Councils to allow the LGMA Branch to continue to operate in the Territory. Coomalie contribution would be \$250.
- vi. Community Engagement: Some of the interesting points from this presentation were as follows; Why Consult ? – It brings people with you, It provides for better decision making, it reduces political and media criticism, It informs people, It

involves people in the decision making process, it empowers people. The most important aspect "You cannot consult when you have already decided".

- vii. Regional Governance Working Group – The report will be released in the next 2 weeks for Councils comments and input.

**b. LGANT Meeting – 7<sup>th</sup> March, 2013**

- i. **Minister for Local Government Address:** Acknowledged the need for a Regional Waste Site, Regional Governance Working Group have finished their report – Councils will have 3 months to comment and LG staff will visit all Councils to discuss this paper. There are 32 recommendations. The structure of NT Councils will not change – we will not be going back to the future. Will be looking at Road Funding for Local Authorities and Rating changes.
- ii. **Australian President of LGA** – Stated that they were placing a lot of effort into Constitutional recognition of Local government in Australia. Having input into changes in relation to the FAGs grants. Looking at the RDAF funding and changes to allow for additional funding to be allocated to more projects. Support the National Can deposit system. RTR funding will extend to 2019.
- iii. **Grants Commission Chairperson NT – Bob Beadman:** Looking at current statics as they have been operating from the 2008/09 statistics. Minimum grants to Councils – NT have 5. Now considering disabilities associated with all-weather roads, airport access. **An invitation has been sent to the NT Grant Commission to meet with Council prior to 30/6/2013**

**3. Grant Funding**

**Special Purpose Grants**

The Minister for Local government has advised that he has approved the following;

- a. \$10,000 to assist with financial modelling to review the financial implications of extending the Coomalie Shire Boundary.
- b. \$247,500 for the construction of footpath from Stuart Highway to WWII Cemetery in Adelaide River.
- c. The other two applications were not approved – i.e. Batchelor footpaths and purchase of a Grader.
- d. Planning and tender documents will now be prepared to undertake item b and Item a will be discussed under our Standing Order agenda item relating to Boundary changes.

**4. Town Planning Issues.**

- a. **Have met with Dept. of Land and Planning** re the following issues;

**i. Coffee shop proposed by Batchelor Museum**

Lot 292, and establishment of an ancillary coffee shop at the Batchelor Museum which is subject to Crown Lease Term 2099. It would appear that the coffee shop would fit within the purpose of the lease provided it is ancillary to the facility. A letter advising of details of what is proposed and seeking confirmation that the use is appropriate will ensure there is a record of what has been agreed to. The letter should be sent to:

Clinton Baylis, Senior Project Officer  
Land Administration  
Department of Lands Planning and the Environment  
GPO Box 1680  
DARWIN NT 0801

**ii) Lot 313 Aged/Retirement Housing**

In relation to the Councils interest in development of a retirement facility on the southern part of lot 313 Town of Batchelor, this matter can be progressed via an application for Crown Land. Although resolution of native title will be required before any allocation of the land can be made, the Department is keen to commence the necessary investigations. As discussed yesterday, which part of the site would be appropriate for the use will be influenced by what is actually proposed? An application including specifics of the proposal will be required to start the investigations. Ann Marie

Dooley whose contact details are below would be the most appropriate contact in relation to this matter.

Ann-Marie Dooley | Senior Project Officer | Land Administration advised as follows;

*“L12003/19/45 refers to a notation placed on ILIS in Dec 2003. It simply illustrates the possible location for an aged care facility, no formal application was ever lodged.*

*If Native Title was not an issue, Council would still need to provide the information requested.*

*As Del noted, formally lodging an application will allow the Department to investigate the suitability of the site and determine if there are any other issues which need to be addressed.*

*I hope this is helpful, please do not hesitate to contact me if you require further clarification. “*

- b. **Met with Representatives from Flanagan Consulting Group** on 8<sup>th</sup> March, 2013 to discuss the following issues;
  - i. Coomalie Planning Concepts and Land Use Objectives
  - ii. Coomalie Developer Contribution Plan,
  - iii. Batchelor and Adelaide River Town site boundaries
  - iv. Batchelor Airstrip development
  - v. Flanagan Consulting will look at this brief and submit to Council an estimate figure for items i) ii) to be completed - Council has unspent Grant funding available to complete this work.

#### **5. Northern Roads – Boundary Roads – Meeting with Litchfield Council**

- a. The following email has been received from the CEO of Litchfield Council:

*“Litchfield Council has supported Coomalie’s request to seek developing the old rail corridor as a road. A letter to the President is being drafted.*

*At the auction all bidders will be advised that No road access is to be provided to their lots by the Council’s.*

*We need to discuss further joint funding of road construction to identify the road and costs before seeking Council’s agreement.*

*Regarding the transfer station plans and costing, I am of little help. All were built 20 years ago with engineering supervision.*

*We have left the old Humpty Doo transfer station on crown land and you may wish to look at relocating it?”*

- b. I discussed a joint meeting between the Councils with Mayor Allan McKay and CEO Russell Anderson. They were very receptive to the idea of Councillors getting together to discuss issues of a similar nature - such as Waste, Boundary roads, Subdivisions, different rating systems to name a few.
- c. **Action: If Council is interested could we suggest some dates when we may get together.**

#### **6. Meeting with Gary Higgins Member for Daly**

- a. On 12<sup>th</sup> March, Clr Turner, representatives from R&S Gardening and myself met with Gary Higgins to discuss the following issues:
  - i. Government contracts – CLP election promise to give Local Business Government contracts. Linda (R&S Gardening) stated that the last contract was awarded to a company that was \$420k more than their tender. The contract still has a further 2 years to run. **Gary will discuss with the Minister for Transport**
  - ii. Native Title – **Gary will follow up with his Federal counterparts.**
  - iii. Rum Jungle Road – The issues associated with this road have been ongoing. **Gary to discuss with the Minister for Transport.**

## **7. Waste Disposal Sites – Batchelor and Adelaide River.**

- a. Discussions with the Dep't of Lands and Planning on 11<sup>th</sup> January, 2013 revealed the following issues:
  - i. Batchelor Waste Site - Proposed transfer to Coomalie Shire has not been completed – No action can be taken until the Native Title issue is resolved.
  - ii. Adelaide River site – Proposed transfer to Coomalie Shire has not been completed. No action can be taken until the Native title issue is resolved.
  - iii. The Land Officer at the Dept. will follow up each application and will have to issue an occupation license for both the sites until Native Title has been resolved. Maximum period is 5 years – can be renewed for a further 5 years on application.

## **8. Meeting with Kel Pearce Office of Australian War Graves – 12<sup>th</sup> March, 2013**

- a. Clr Turner, Clr Corliss and CEO met with Mr Kel Pearce and the following issues were raised;
  - i. Toilets: His Office does not want paid toilets and would like to discuss several proposals to assist Council to reduce the financial burden on cleaning and maintaining these facilities. The suggestions were a paid invoice (approx. 1/3 contribution and an overhead arrangement to cover maintenance costs. The engagement of a Visitation Service Officer with part of this positions job description to clean the toilets. The period would be April to September.
  - ii. Car park: The area continues to flood (i.e. 2009 & 2011) and the bitumen area would not survive the continuous flooding especially if the park was extended down to the river area. Suggested several alternatives regarding bus parking to be in and out, more verge parking etc. Would be happy to fund and develop a parking concept plan and would need input from Council and Robert Evans. The plan could also be incorporated into the Adelaide River Funded Footpath project.
  - iii. Memorial Drive: Did not form part of their brief and they would have no input into road issues.

## **9. Batchelor / BIITE Library**

- a. Jo & I met new Executive Officer Lea Giles-Peters from the BITTE Library to discuss alternative ideas to engage younger people to use the Library. Mazz will be meeting with Lea to discuss various ideas. Some of the suggestions that were put forward were:
  - i. Producing a recycling movie.
  - ii. Interviews of elders.
  - iii. Producing a tourism document utilising the facilities at the BIITE.
  - iv. Grant funding on a joint basis.

## **10. RDAF – Meeting**

I met with the Executive officer RDAF Kate Peake to discuss where to from here in relation to Council not receiving any funding for RDAF Rounds 3 & 4 being the Tourist Information Centre and Snake Creek WWII & Rail projects. She suggested that we submit a Grant application under the Regional Economic Development Fund to fence out the Snake Creek historic area. The grant funding is \$20k.

## **11. Council Functions**

- a. **Bombing of Darwin – 20<sup>th</sup> February, 2013.** Congratulations are extended to Marilyn Morris and the Darwin City Council on the 71<sup>st</sup> Anniversary of the Bombing of Darwin at the Adelaide River War cemetery. The event was very well presented and organised and I have received excellent comments from those in attendance. A special mention to the MC Tala Turner for an excellent first up job.
- b. **Opening of The Rum Jungle Bowling Green** – This is programmed for Sunday 21<sup>st</sup> April 2013. An invitation has been sent to the Minister for Sport and Recreation to undertake this task or Gary Higgins MLA, if the Minister is unavailable.

## **12. Complaints Register**

The Complaints register is attached for Councillors information.

#### **10. Dates to remember**

- a. **21st April** – Opening of the Renovated Rum Jungle Bowling green.
- b. **25<sup>th</sup> March** – Public meeting Batchelor
- c. **26<sup>th</sup> March** – Public meeting Lake Bennett
- d. **27<sup>th</sup> March** – Public meeting Adelaide River.

### Community Recreation Officer Report February / March

**Clean Up Australia Day** – There were five Clean up Sites throughout the Coomalie Shire which was a '*top effort*'. Batchelor and Adelaide River townships were both very clean compared to past years – thanks to the help from Darwin Correctional Services in Adelaide River and the CDEP participants working under John McLean in Batchelor. Max Corliss had a huge team of helpers in Adelaide River and they enjoyed their bar-b-q at the School afterwards. Council employee Ian Middleton volunteered his time to drive the Council truck to Adelaide River and take rubbish to the tip. A small crew looked after Batchelor township and were joined by three HAR employees who cleaned from the town grid up to the Litchfield Park road turnoff. Ros and Bruce Jones coordinated the Litchfield Park crew and covered a lot of land. Sue Bulmer took care of the Eva Valley region with half a dozen locals and even met some new neighbours. Kylie Turner volunteered her time to drive the truck between Eva Valley, Litchfield and Batchelor town. Dave Gray and a small band of locals, along with Andrew and Billie Turner took on the challenge of Chinner Road from the Stuart Highway in through the hills and past the Resort. The weather in Batchelor was rainy – so no bar-b-q as everyone wanted to go home and dry off. Instead we held the bar-b-q at Lake Bennett and fed the eight starving teenagers that helped out through the area. Totals – 84 bags, 2 tyres, 2 rims, planks of wood and a door, 8 guide posts, 1 muffler, trailer parts, metal and hoses.

**Swimming** – the Swim Group is maintaining its popularity and many little ones are becoming more confident in the water. Rana and Laura are doing a great job, assisted by many parents and Bronze Medallion holders. With the increased interest – it is vital that I have Kylie Turner and myself as the Bronze supervisors to watch over the forty or so people in the Pool area. Kylie does the water testing and if I am handling the paperwork, queries and payments, she is always on the lookout while I am occupied.

**Friday Night Fun** – Since the Hoops 4 Health Basketball Clinic – approx 50 kids have been very enthusiastic on the courts and in the craft corner with Noessa Bulsey. Night Patrol monitor the Basketball zone and coordinate fun shooting games and work with the older kids who are umpiring and playing. I have approached Basketball NT with the proposal they bring

down a coach once a fortnight to coach and then umpire a game. Response back is that they have a tight budget and two employees who look after a large area. I have discussed with Ryan Martin (Principal at BAS) about utilizing some of the NT Govt \$75 sports voucher funding which was sent to the school in a bulk amount, to be used with sports affiliated groups. We are working together to bring down someone from an affiliated club each fortnight. This is hoped to integrate Woolanin College teenagers, Coomalie teenagers and interested adults into a small social sports evening. Through the bulk funding the under 9's and under 12's boys and girls will be heading to Darwin to play in the 'Junior Thunder' comp for 11 weeks from end of March. This is a Friday night competition and will therefore reduce numbers at the Centre that evening, which may work in with opening on a fortnightly basis for basketball with older kids through April, May and June.

**Youth Week event** – Coomalie Council are partners in a grant with Batchelor Area School to hold an event on Wed 10<sup>th</sup> April at the Batchelor Pool. The grant is for youth from 12 to 25, however we will cater for younger children too. Council as partners in the grant provide the bus, venue, equipment and my time to help organize and implement the event. The event is from 10am to 4pm with NT Cricket, NT Thunder and NRL NT coming down to hold clinics and organize games. Also a bar-b-q, hip hop duo Kyle and Lunchbox creating music and youth service providers attending. Any help would be appreciated.

**Anzac Day** – Letter sent to the Chief Minister seeking funding and email sent to Dept of Transport querying buses from Darwin, plus letters to businesses and organizations in our region regarding wreath orders and reserved seating. Various volunteer groups organized – St John's, Batchelor FERG (14 already confirmed), A.R. FERG (Dyaane Allport is coordinator of traffic management), NT Scouts to sell poppies and candles.

Ablution block, lighting towers, sound and lighting technician, security, bugler, MC, accommodation, singers, piper, Chaplain and ARSS Club Gunfire Breakfast all booked. Her Honour The Administrator is arriving in Batchelor on the 24<sup>th</sup> and will meet with the Shire President Andrew Turner at the Council Chambers. Her Honour is staying in Adelaide River for the night and will be met by Andrew and escorted to her seat on arrival at the War Graves.

**Monthly Markets** – At the Christmas Market it was agreed we would look at starting after the wet, dependant on rain being early or late. As we have not had much rain, I plan to begin markets again on Sunday 14<sup>th</sup> April. Unless it pours for the next 4 weeks, of course.

**Upcoming Grants** – Applying for a Youth Vibe Holiday Grant to implement in the June/July School Holidays.

Also in discussions with Kerry Crosbie regarding grants for Playgroup.

The Lingalonga Festival Committee are working toward a grant for the Lingalonga Festival and incorporating the 60 year celebrations too. Ros Jones and I are gathering information and getting quotes for Lisa Wain.
